AMNIOGAIN

Amnion Chorion Sheet

AMNIOGAIN® AMNION CHORION SHEET | Surgical Esthetics®

LET NATURE TAKE THE REGEN-REINS

Amniogain™ Amnion Chorion Sheet is a dual layer allograft membrane derived from human placental amniotic and chorionic tissue. It is designed to provide a biologically active barrier that supports the body's natural healing process. The sheet contains an extracellular matrix rich in growth factors, collagen, and essential proteins that contribute to wound repair and tissue regeneration. With its natural biocompatibility, Amniogain™ provides a versatile option for a variety of surgical and regenerative applications.

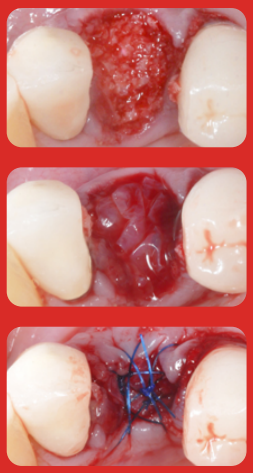

PASSIONATE ABOUT REGENERATION

PRODUCT FEATURES

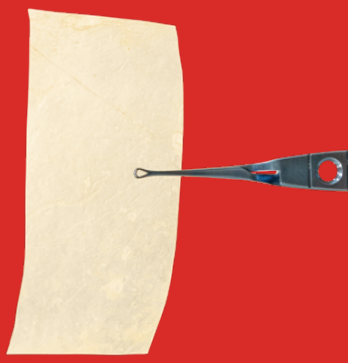

- **Dual-layer membrane** derived from amnion and chorion, providing a natural scaffold for tissue repair.
- **Barrier properties** that help protect the wound site while promoting cell migration and angiogenesis.
- **Non-immunogenic** and biocompatible.
- **Room-temperature storage.**
- **Easy handling**—thin, flexible, and conforms to complex wound surfaces.
- **Sterile, single-use** graft processed under stringent quality and safety standards.
- **Biologically active**—retains key growth factors, cytokines, and extracellular matrix proteinsto aid in healing.

INDICATIONS FOR USE

Amniogain™ Amnion Chorion Sheet is indicated for use as a protective covering and biological scaffold in applications such as:

- **Oral and periodontal surgery** (gingival recession coverage, soft tissue regeneration, guided tissue regeneration).
- **Implant dentistry** (site preservation, ridge augmentation, peri-implant tissue support).
- **Oral/maxillofacial surgery** (extraction sites, sinus lifts, bone graft coverage).

AMNION NATIVE FUNCTION

- Nutrition – *feed the cells*
- Cell signaling – *bring active cells to the right spot*
- Antimicrobial – *minimize infections*
- Anti-inflammatory – *pain relief*
- Analgesic – *pain relief*
- Immunogenic – *anti-rejection*
- Angiogenesis – *blood vessel growth*
- Osteogenic – *bone growth*
- Amnion contains – *Cytokines, proteins, growth factors*

CODE	SIZE
AGAC8x8	8x8mm
AGAC10x10	10x10mm
AGAC12x12	12x12mm
AGAC10x20	10x20mm
AGAC15x20	15x20mm
AGAC15x25	15x25mm
AGAC20x30	20x30mm
